Career Objective

Aspiring Data Analyst and Backend Development with strong expertise in SQL and Python and AI. I take a lot of satisfaction from solving real-life problems based on data. Currently preparing for GATE 2026 in DS and AI. Proficient in SQL optimization, data modelling, and building scalable backend solutions. Looking for an opportunity in a growable environment, where I can use my potential and learn.

Technical Skills/Additional Certification

Technical Skills

- **Programming Languages** – Python, C++
- **Core Skills** – OOPS, DBMS, DSA, Operating System, Computer Networks
- **Web Technologies** – Django, MySQL, HTML, CSS, JavaScript
- **Machine Learning & Data Science** – Scikit-learn, Pandas, NumPy, Matplotlib
- **Development Tools** – MySQL Workbench, Power BI, Tablue, Excel GitHub, VS Code, Jupyter Notebook

Additional Certification

- **Python Programming** – NPTEL (Guided by IIT Kharagpur)
- **Computer Networks** – NPTEL (Guided by IIT Kharagpur)

Internships

Data Science intern, Prodigy InfoTech

Mar'24-April'24

- Gained hands-on experience in **Business Intelligence (BI) tools**, data preprocessing, and data visualization.
- Worked on **cleaning, transforming, and analysing real-world datasets** for insightful decision-making.
- Developed **interactive visualizations** using Matplotlib, Seaborn, and BI platforms.
- Strengthened knowledge in **data-driven decision-making** and exploratory data analysis (EDA).

Academic Projects

KrishakBuddy – AI-powered Farming Assistant (Group Project)

Jul'24-Aug'24

- Collaborated on an AI-driven project to assist farmers in crop disease detection, crop recommendation, and fertilizer suggestions.
- Led the machine learning development, implementing image processing (OpenCV), predictive modelling (Scikit-learn), and deep learning for disease detection.
- Developed algorithms to analyse soil quality and recommend optimal crops and fertilizers based on real-time data.

School Management System (Live Project) – Group Project

Dec'24-Feb'24

- Developed a full-stack web application for a school, including Admin Panel, Staff Panel, and Student Forum.
- Worked as a backend developer, responsible for building and optimizing the Django backend and MySQL database.
- Implemented features like student management, fee management, teacher dashboard, and dynamic content updates.

Trainings & Workshops**5-Day Workshop on AI, ML, Computer Vision, and Deep Learning**

Aug'24

Organized By – Brainware University

- Gained insights into Artificial Intelligence, Machine Learning, Computer Vision, and Deep Learning concepts.
- Hands-on experience with ML models, image processing techniques, and neural networks.
- Explored real-world applications and industry use cases.

Achievements

- Published a conference paper in the *American Journal of Advance Computing (AJAC)*.

May'24

Extra-curricular Activities

- Organized Blood Donation Camp (2022) – Member, NGO SapnaDishari
- Participated in Tree Plantation Drive (2024) – NGO SapnaDishari
